

You Have 3 Seconds To React To A Violent Attack... Do You Know What To Do?

Discover Simple Methods That Can Increase Your Personal Safety & Help Protect Your Family *Right Now* without years of training!

The world we live in can be a dangerous place as threats from thieves, burglars, rapists and now terrorists become daily news & exist all around us wherever we go.

Your personal safety & well-being is threatened too often to ignore.

In addition, recent events occurring on college campuses are troubling to parents, who want nothing more than to keep their children safe while they are away from home.

Pete Canavan is a Martial Arts Master, Lethal Weapons Certified Agent & Personal Safety Consultant who has been teaching men, women and children how to effectively protect themselves for over 20 years through classes & seminars.

He has taken a problem facing many people (lack of time and money) and developed a system that combines books with online videos to create self-paced training so anyone regardless of experience (or lack of it) can immediately increase their personal safety & confidence while at the same time reduce worry and stress.

His upcoming book, *Staying Safe At College & On Campus* addresses the many safety challenges facing today's college students.
